Senior AV Technician

About the Role

Myles Audio Visual is seeking experienced Senior AV Technicians to deliver high-end production outcomes for premium corporate clients, luxury venues and major event productions across Australia.

This is a senior, client-facing role requiring strong technical capability, leadership skills and a polished professional approach. You will play a key role in the successful delivery of conferences, executive events, gala dinners, brand activations and hybrid productions.

Senior Technicians are expected to lead by example onsite, support junior team members and maintain the high technical and service standards Myles AV is known for.

What You'll Be Working On

- Large-scale corporate conferences and productions
- Multi-camera and vision switching setups
- LED walls and advanced presentation systems
- Intelligent lighting and stage production
- Hybrid and live-streamed events
- Executive and VIP client events

What You'll Bring

Technical Expertise

- 3+ years experience in live events, AV production or related fields
- Strong proficiency in at least one technical discipline with working knowledge across others

Examples include:

- Audio: Digital consoles, Dante, RF wireless systems
- Vision: Presentation switching, playback, videoconferencing, LED processing
- Lighting: Intelligent lighting, DMX systems, show control
- Experience delivering both corporate meetings and large-scale productions
- Strong troubleshooting and problem-solving skills

Leadership & Professionalism

- Confident and polished client-facing manner
- Ability to lead onsite event delivery

- Experience mentoring junior technicians
- Strong communication with clients, venues and internal teams
- Ability to remain calm under pressure and adapt quickly onsite

Training & Career Progression

Myles AV is committed to ongoing professional development and investing in our team.

Senior Technicians may receive opportunities to further develop skills in:

- Advanced production systems
- Technical direction
- Networking and system integration
- Event leadership and crew management
- Project and account coordination

Myles AV Standards

Senior Technicians are leaders within our business and are expected to:

- Deliver exceptional event experiences
- Maintain high presentation and communication standards
- Take ownership of event outcomes
- Mentor and support developing technicians
- Represent Myles AV professionally across all venues and clients

Why Join Myles AV

- Deliver premium events for global and luxury brands
- Work within high-end venues and production environments
- Join a high-performing and supportive team
- Access ongoing training and development
- Be part of a growing national business
