Venue AV Technician

About the Role

Myles Audio Visual is seeking experienced Venue AV Technicians to support the delivery of premium events within our partnered venues across Australia.

This is a client-facing role suited to technicians who are confident operating events independently while maintaining exceptional service standards. You will be responsible for the setup, operation and pack down of events ranging from boardroom meetings through to conferences, gala dinners and weddings.

Venue Technicians act as a key point of contact onsite, working closely with venue teams, clients and internal departments to ensure smooth event execution.

What You'll Be Working On

- Corporate meetings and conferences
- Ballroom gala dinners and awards nights
- Hybrid meetings and live streaming
- Wireless microphone and presentation systems
- Venue lighting and audio systems
- Day-to-day venue AV operations

What You'll Bring

Technical Experience

- 1–3 years experience in live events or AV production
- Working knowledge across audio, vision and lighting systems
- Experience operating corporate events independently
- Understanding of presentation systems and videoconferencing platforms
- Ability to troubleshoot technical issues under pressure

Client Service & Professionalism

- Strong communication and customer service skills
- Professional and polished presentation
- Ability to work directly with executive-level clients and venue teams
- Strong organisational skills and attention to detail
- Reliable and adaptable approach to event environments

Upskilling & Development

Myles AV provides ongoing opportunities for technicians to expand their technical skillsets and progress into senior production roles.

Training opportunities may include:

- Advanced audio networking and Dante systems
- Vision switching and LED processing
- Intelligent lighting systems
- Streaming and hybrid event solutions
- Event leadership and crew coordination

Myles AV Standards

We pride ourselves on delivering premium experiences for both clients and venue partners. Venue Technicians are expected to:

- Represent the Myles AV brand professionally at all times
- Maintain excellent communication with clients and colleagues
- Deliver clean, organised and reliable event setups
- Be proactive and solution-focused onsite
- Uphold venue standards and operational procedures

Why Join Myles AV

- Work within prestigious hotel and venue environments
- Deliver premium events for leading brands
- Ongoing training and technical development
- Career progression opportunities across Australia
- Supportive team culture with varied event work
